### Program Overview

We help dental offices become Covid-19 testing sites quickly - applying our mobile lab licensure and national physician network to their location. The dental teams become Covid testing technician teams within 10 days or less.

This increases revenue, drives patients to the location and increases opportunities for other lightweight laboratory and medical services down the line.

### Tests Available

- **Rapid PCR - 30 min\***
- Rapid Antigen - 15 min
- Rapid Antibody - 15 min
- Lab Mail-out PCR - 24 hours
